

Overview

Who We Are

Conveniently located in central Illinois, Peoria Production Solutions has been meeting the production and contract assembly needs for companies of all sizes in a wide range of industries for more than 80 years.

What We Do

Our services include assembly, wrapping, packaging, kitting, sewing, cutting, finishing, rework, salvage, and more. As your valued business partner, we offer turnkey solutions and shipping of your assembled items to anywhere in the world.

Our Capacity

We have the capacity, equipment, staff, and processes to customize any assembly project to meet your specifications.

Our modern 240,000-square foot facility and computerized inventory control system is designed to support the safe and efficient handling of raw materials, components, and finished products.

Higher Standards

Certified to ISO9001:2015, we utilize automated equipment and precision tooling and conduct Value Stream Mapping activities to identify the optimum flow of materials. With our quality focused solutions, we provide both product and process improvements for manufacturers in many industries.

We Hire Performance

We offer a skilled and experienced workforce trained in quality work processes and dedicated to a job well done. Cross training of our employees eliminates bottlenecks that could potentially disrupt your production schedule.

What sets us apart from other contract companies is our commitment to our people. As a premier employer of high functioning individuals with disabilities, we help our staff to realize their full potential. We are a self-sustaining, not-for-profit company, with a focus on jobs rather than profits. As we like to say - *when you succeed, we fulfill our mission.*

Save on Contract Assembly

We are in a unique position to provide the most competitive quotes for our services. Since our motivation is jobs, not profits, we can typically perform the same work for less cost than staffing agencies or in-house staff.

Hire Performance, Higher Standards

We take great pride in our reputation for efficiency, accuracy, and quality.
